

# FIREGL WORKSTATION GRAPHICS SOLUTIONS

## World Class Workstation Graphics Performance, Reliability, and Support

ATI FireGL workstation graphics accelerators are thoroughly tested and certified with all major CAD and DCC applications. While ATI FireGL products are available from Fujitsu Siemens Computers, ATI is unique in offering direct customer access to a dedicated workstation technical support team.

Basic	Good	Better	Best

ATI FireGL Model	FireGL V3300	FireGL V3400	FireGL V5200	FireGL V7200	FireGL V7300	FireGL V7350	Mobility FireGL V5200
3D DCC							
3D MCAD / CAE							
3D MCAD / CAE (large data sets)							
3D Visual Simulation (VizSim)							
2D AEC / DCC / Software Development							
Digital Editing / Publishing							
Medical / GIS							
Fujitsu Siemens Computers Workstations			CELSIUS W / M / R / V Series		CELSIUS M / R / V Series		CELSIUS H240

Aftermarket Upgradeable

Preconfigured Option

## ATI FireGL™ Workstation Graphics Accelerators – Unmatched Performance, Features, and Visual Fidelity

ATI FireGL workstation graphics accelerators deliver the graphics horsepower for the most demanding users. ATI FireGL accelerators are designed to handle the most complex 3D models, the largest data sets, and the highest definition textures used in today's professional applications.

ATI FireGL Model	SPECIFICATIONS				DISPLAY CAPABILITIES				SPEC Viewperf 9 SPECopc PERFORMANCE
